

ILLUMINATING LIFESTYLE

*Goettling Interiors have partnered
up with German brand **Occhio**
Lighting, redefining luxury
lighting in the UAE*

Mito raggio arc
luminaire with a
matte gold surface
and continuously
adjustable light via
touchless control

Occhio's choice of lighting pledges to enhance our quality of life. This is the philosophy behind German lighting brand, Occhio.

Boasting a vast selection of indoor and outdoor lights, the refined designs, consistent in their shape and form, capture the essence of elegance and quality in the environment. Occhio's award-winning Mito line marries sensual design with impeccable luminaires for a transformative lighting experience.

The Mito line's versatile designs offer ceiling, pendant and floor lighting in arc and linear formats with the added features of touchless control, height adjustment, presence sensor, up and down fading, colour tuning and remote bluetooth control. Available in six finishes including rose gold, bronze and matte white, black, silver and gold, the sophisticated lighting interiors are suitable for various spaces, home and work accommodations alike.

The meticulous craftsmanship is evident in the design's mechanisms, shape and versatility. The suspended luminaires embody double-sided lighting effects, an optic diffuse feature for broad ceiling illumination and optic narrow for concentrated, glare-free light. Manufactured using optical silicone, Mito lighting ensures decreased glare and aesthetic light lines. Also featured in the Mito line is the Mito Soffitto, which includes the Occhio air control option for adjustable light intensity to suit personal choice, while for uniform room illumination, the optic wide feature beautifies the entire space. Mitto Raggio and Mito Largo include Occhio's up and down fading option for touchless, uplight and downlight control, enabling users to seamlessly direct the light from one side of the room to the other.

With elegance, flair, efficiency and beauty, Occhio Lighting is transforming lighting experiences all around the region. occhio.com
